

SURFCANE 20

Double-sided 19 mm PVC canisse

Durable, UV-resistant reed is an excellent choice if you are looking for an environmentally friendly and unique-looking privacy screen for your fence, patio or garden boundary. It is environmentally conscious, as it is made from 30% recycled material, is 100% recyclable, and thanks to its innovative production technology, it requires 10% less plastic to produce.

Benefits

- Made from at least 30% recycled plastic.
- 100% recyclable at the end of its life.
- Made with 10% less plastic, while maintaining its durability and functionality.
- Unique appearance with S-shaped fibers
- Nature-inspired appearance and design.
- Due to the hollow fibers, it is light in weight, so it is simple and easy to install. It does not require special skills, even 2 people are enough to install it
- The galvanized steel wire gives the product excellent support.
- Its natural character is due to the mixed colors, so it fits well in any environment.
- It can be easily cut horizontally and vertically with a pair of pliers.
- UV resistant, thanks to which it is resistant to sunlight and weather conditions.
- Due to its properties, it is ideal for coastal and lakeside locations, or next to pools, because it not only catches the wind, but also filters out unwanted glances.
