

CLASSIC

Classic decorative panel

Looking for a simple and durable decorative element that perfectly matches your garden? This panel needs no maintenance: it does not rot and needs no painting. Designed for long-term durability and resilience. Totally resistant to adverse weather.

Benefits

This simple decorative element can be installed horizontally as a terrace fence, or vertically to divide various spaces. It can also be mounted on the wall as an elegant structure for creeper plants. Structured, wood-like surface. Easy to install and transport thanks to its flexibility. It can be sawed to pieces, screwed, nailed, and washed. Warranty: White colour: 3 years * Green colour: 3 years * *Considering 160 Kilolangleys (kL) / year

Characteristics

Material: PP. Resists UV radiation, sunlight and weather. Size: 1x2 m. Thickness: 5 mm. Colour: white. The panels slightly contract or expand depending on the temperature, so it's important to follow the installation instructions to keep the required distance between the panels.
